

How to Link your Districts Fixture (or any other page) as an Icon to your I-Phone

For an Apple device (I-Phone – I-Pad)

Apparently, you can only use this from “Safari” (Does not work for Chrome or Edge i.e. not an apple app)

Go to the VVGA website: vvga.org.au

Select Menu

Or, turn your phone and view in landscape (Will continue in this format)

And Select “*District Information*”

Scroll down to your Districts Fixture – I will select Central District
Please note, this is a fixture by VVGA webmaster, others are links to the districts web page fixture and maintained by the districts.
